ICT LABORATORY RULES & SAFETY CHART

Be responsible. Stay safe. Protect the equipment.

1. Enter the computer laboratory only when your teacher or laboratory assistant gives permission.
2. Keep food and drinks away from computers, keyboards and electrical equipment.
3. Handle computers, cables, keyboards and other devices gently and carefully.
4. Keep your hands clean and dry before using computer equipment.
5. Do not plug in, unplug or repair equipment without permission.
6. Sit properly, keep a comfortable distance from the screen and take short eye breaks.
7. Keep bags and other items away from walkways to prevent trips and accidents.
8. Use the internet responsibly; do not visit harmful websites or download unknown files.
9. Save your work correctly, log out when finished and shut down equipment as instructed.
10. Report damaged equipment, loose cables, electric shocks or accidents to the teacher immediately.

REMEMBER: A safe computer laboratory helps everyone learn better.
